Introduction

Who doesn't love travelling? It's amazing to discover new countries, see new places and meet new people.

We all need time to relax and run away from all the worries of everyday life.

Most of us don't like extreme vacations, sleeping in a tent or hostels.

We like luxury, 5-star hotels and all-inclusive life.

Unfortunately, it's really expensive... You need to spend thousands of dollars to take your family for holidays like this.

It's just crazy that you need to save money for a year and then spend it in just one week!

We are full-time travellers. Last year, we visited 10 countries on 3 continents. We are in a journey for 2 years, now we are in Asia. We are planning to visit Thailand, Malaysia, Singapore and Indonesia in next few months.

We really hate cheap hostels and poor quality of life. And here comes the question: how to travel in luxury and don't spend a fortune on that?

We were trying to find the answer to this query for a long time. After many failures and mistakes, we've finally developed an unique method for saving more than 50% on luxury travel.

We stay in 5-star hotels, eat in luxury restaurants and still don't spend more than our friends who buy cheap trips in Travel Agencies.

In this book we will share with you our secret. We will give you best tips how to save 50% on All Inclusive vacations.

This is really innovative and nobody did it before.

Richmen don't care about money and they can spend thousands of dollars without a blink. On the other hand, middle-class people are too afraid to go to luxury hotels. They think they just can't afford it, so they just stay in normal 3-star hotels.

In this book we will teach you how to feel like billionaire even if you have average salaries.

So... are you ready for this wonderful trip to the luxury travel world?

Don't use a travel agent.

This is the first, the most basic and the most important advice. If you buy a trip from travel agencies, you can be sure you overpaid for it.

Just think logically:

Are they helping you for free?

They are doing exactly what you can do on your own. The difference is the commission.

Travel Agency is a normal company that need to pay taxes, salaries, office maintenance costs etc.

You always pay them at least 30% more than you would spend if you buy everything on your own.

So why most of the people on the world decide to use travel agents?

The answer is: safety.

People think that if the trip will be organized by travel agencies, nothing bad will happen.

There will always be someone out there who will help them. They won't have to worry about transportation, food, accommodation etc.

So they are spending thousands of dollars only to feel safe.

Now answer to this question: is it worth it?

Most of the countries on the world are safe and nothing bad will happen to you when you will travel alone.

You can really feel safe everywhere if you plan everything carefully. The only difference between organizing trip on your own and booking it at travel agency is the commission.

If you book flight, airport transfer and hotel separately, you will save at least 30%-50% on the whole trip.

You will get exactly the same things, nothing will change. You will get to the plane, the driver will be waiting for you at the airport and he will get you to the hotel.

You will do the very same things you always do on your All Inclusive vacations. You'll just pay less.

At the beginning of our relationship, we bought All-Inclusive vacation from Travel Agency.

We paid more than \$1000 per person for one week holiday in Turkey. We are also from Europe, so it was really close to our country.

Guess what? Our hotel was terrible, food was disgusting and Staff was rude. We chose one of the best offer this famous Travel Agency had, but still- we were disappointed.

One year later we went to Thailand, Vietnam and Cambodia for a month. We spent \$1500 per person for 30 days in paradise (including flight, food and accommodation).

No matter if you are good in Maths or not, take a look on these numbers:

1. All-inclusive vacations in Turkey costed \$1000 per person per week. It's \$143 per day.
2. Vacations we organized among ourselves costed \$1500 per person per month. It's \$50 a day!

Do you see the difference? We paid 3 times less! Not to mention we were on the other continent, in exotic countries and it was a real adventure for us!

How did we save so much money?

We organized the trip on our own.

In the next chapters we will teach you how to do it.

But right now, we want you to understand that skipping travel agencies is the biggest saving in your trip.

If you organize the trip on your own, you really don't need to worry about anything.

At point 7, we will write more about exceptions from buying hotels or flight from Travel Agencies.

Don't pay the commision to Travel Agent. Book everything separately.

Always check opinnions!

If you really want to travel in luxury, you always need to check opinnions about anything you want to book.

Thanks to this, you will avoid dissapointments and unpleasant experiences. How to do it?

1. Google the place you want to stay/ go/ see.

If you can't find anything about it, just don't go there. Every luxury hotel, restaurant or transportation, always have a lot of recommendations.

If you care about your comfort, don't risk going somewhere nobody went before.

Find at least 10 good opinions before you book something. Don't be afraid if you see some bad feedbacks. As long as there are less then 20% of them, you can be sure the place you want to stay is OK.

2. Check people's opinnions on famous websites.

Of course Tripadvisor is the best. But for hotels you can also check opinnions on booking.com, hotels.com etc.

3. Don't go to new places.

It may sound weird, but we don't recommend you going to the new places. It's very risky. You may be really disappointed.

'New' means a place with less than 10-20 feedbacks.

Example:

When we were in U.S., we were searching for a nice apartment in Washington, D.C. We found really good 4-star hotel in the city centre. It was new, had just 3 opinions on booking.com

All of them were positive, so we decided to give it a try.

And we really shouldn't do this! There were long, black hair all over the apartment. It was really disgusting... This hotel should cost half a price we paid for it.

Since then, we've never booked a place with few opinions again.

Good opinions are the key to success in travelling. The more positive feedbacks the place has, the more sure you can be that you will enjoy your stay.

Do not be fooled by the low price! It's always better to pay more for hotel with 100 positive opinions than for cheaper hotel with only 5 good feedbacks.

Always check opinions before you book or buy something!

Find cheap flights

If you want to go somewhere, the first thing you have to do is booking a flight.

Plane tickets are usually the most expensive things in the whole trip. That's why you really need to buy them in the first place.

How to find cheap tickets?

The best is to wait for a good deal that will appear on websites we mentioned above, in point 3.

Example:

Thanks to Fly4Free.com we bought United Airlines return tickets from Europe to New York city for \$250 at high season!

It's an unbelievable price, right?

Tip:

When there's a good deal out there, you need to act fast. People from all over the world are looking for amazing offers too.

Sometimes it takes only 15 minutes for the deal to finish.

Check your email inbox few times a day and have some savings prepared to spend on a good deal.

If you find a good deal, buy it fast. It may be finished in few minutes.

Subscribe airline newsletters

Another idea is to subscribe to Airlines newsletters. They will inform you about great offers.

Airlines usually give discounts once a month. So be patient and wait. It's really worth it!

You can save up to 30% on the flight.

Use Your Age or Student Status

If you're a student or under 26 years old, ask about student discounts at STA Travel. STA Travel's [Exclusive Tickets](#) can save you money.

Low cost airlines

When you are interested in domestic or short distance flights, you should always buy tickets from low-cost airlines.

In Europe these are:

- WizzAir
- RyanAir
- EasyJet

In U.S. and Americas:

- Spirit Airlines
- JetBlue

In Asia:

- AirAsia

In Australia:

- JetStar

You'll be surprised how money you can save by choosing low-cost airlines!

**Always buy plane tickets first. This should
always be the beginning of planning your trip.**

Folded booking systems

Remember that booking websites are only systems, which can sometime be easily fooled. Now you see how booking systems can easily be fooled? Every system has some defects. You just need to know them or... google them ;)

Search one segment step by step

Fuel Dumping

Patent Krakowski

You want to go to Reykjavik from London on April, 26th and come back at May, 6th.

Go to www.easyjet.com and select your flights.

The screenshot displays the EasyJet flight search interface. The main section is titled "Choose your flight" and includes a "SEARCH AGAIN" button. Below this, there are options for "Choose type of fare" (STANDARD, FLEXI) and a "SUMMER 2015" promotion. The "FLEXI" fare is highlighted, with benefits like "Up Front seats" and "Hold luggage".

The search results are presented in a "3 day view" format, showing "Outbound journey" (London Luton to Reykjavik) and "Return journey" (Reykjavik to London Luton). The outbound journey has three options: Fri 24 Apr (€93.09), Sat 25 Apr (€70.40), and Sun 26 Apr (€56.22, marked as the lowest fare). The return journey has three options: Mon 04 May (€129.81), Tue 05 May (€80.88), and Wed 06 May (€67.40, marked as the lowest fare).

On the right side, there is a "Your Trip to Reykjavik" summary with a "Continue" button. It lists the flight details for the selected dates: Sun 26 April 2015 (London Luton to Reykjavik) and Wed 06 May 2015 (Reykjavik to London Luton). The subtotal for flights and options is €247.24. At the bottom, the "Final Price" is shown as €247.24, with options to pay by credit card (€252.18) or debit card (€247.24).

Journey	Date	Price	Lowest Fare
Outbound (London Luton to Reykjavik)	Fri 24 Apr	€93.09	No
	Sat 25 Apr	€70.40	No
	Sun 26 Apr	€56.22	Yes
Return (Reykjavik to London Luton)	Mon 04 May	€129.81	No
	Tue 05 May	€80.88	No
	Wed 06 May	€67.40	Yes

The price for 2 people is more than 247 euro.

But you can easily make it lower:

1. Go to the main website and select one-way flight from Krakow to London. Select as many people as you want to travel with.

The screenshot shows the 'Choose your flight' section of a website. It features a search bar with 'SEARCH AGAIN' and a 'Continue >' button. Below the search bar, there are options for 'Choose type of fare' (STANDARD, FLEXI) and 'SUMMER 2015' with the text 'Flights now available to book'. A 'Compare fares' dropdown is also visible. The main content area shows '3 day view', '3 week view', and 'Year view' tabs. Under 'Outbound journey', it specifies 'Krakow to London Gatwick' and 'Your journey is one way only'. A table of flight options is shown with columns for departure and arrival times and prices. The selected flight is highlighted in orange with a price of €61.31. A 'Your Trip to London' sidebar on the right shows a 'Continue >' button, a currency selector set to 'Euros', and a summary of the selected flight: 'Thu 23 April 2015', 'Krakow to London Gatwick', 'Dep 13:15 - Arr 14:45', 'Flight EZY8512', '2 Adults', and a subtotal of €122.62. The 'Final Price' is €122.62, with options to pay by credit or debit card. A 'Continue >' button is at the bottom right.

2. Select Add flight and type what you are looking for. In this case it's flight from London to Reykjavik on April, 26th and back at May, 6th

This screenshot shows the same flight selection interface as the previous one, but with a modal window open. The modal is titled 'Add more flights to your itinerary' and contains a form for adding a new flight segment. The form fields are: 'Flying from *' (London Luton LTN), 'Outbound' (26 April 2015), 'Going to *' (Reykjavik (Keflavik) KEF), and 'Return' (26 May 2015). There are 'Search' and 'Cancel' buttons at the bottom of the modal. The background shows the same flight selection interface, but the 'Continue >' button at the bottom right is highlighted with a red box. The 'Final Price' is still €122.62.

3. Delete the first flight from Krakow to London.

Hidden city ticketing

This is strategy when flight from A to C with a connection in B is cheaper than flight from A to B. It works only with carry-on luggage. If you have checked baggage it fly to C.

Throwaway ticketing

This tips working that often one-way tickets is more expensive than Round Trip. In this case you buy RT tickets but use only one-way

Back-to-back ticketing/ nested ticketing

Airlines charge more for RT flights middle week. After Saturday night stay the price is lower. This strategy we use when plan two RT flights during two weeks. First and third flight reserve together and second with fourth

Find cheap transfer

OK, you have your cheap plane tickets. Now it's time to book transfer from the airport to your hotel.

It's always better to do it before your get to your destination. Why? Because usually airport taxis, buses and shuttles are expensive.

Example:

In Rome (Ciampino Airport) airport shuttle cost 4 euro. If you go to the public transportation bus stop, you will pay for the very same ride only 1.2 euro.

There are many websites offering airport shuttles. We were always dissatisfied by their services.

That's why we decided to create our own website with best airport transfers on the world!

<http://cheapairporttransfers24h.com/>

We offer cheap, high-quality and reliable transfers.

If you want to travel by something else than plane, always check different routes.

The further you go, the more you will pay for the ticket.

Let us give you an example:

You and your 3 friends want to get from the Niagara Falls, ON to Newark, NJ. You are searching for tickets for Greyhound bus, the largest provider of intercity transportation in North America.

The price for 4 of you is \$210, non refundable ticket.

\$176+\$12.40= \$188.40

You save \$21.60 by this simple trick.

Now take a look at the time.

These two options are exactly the same! The only difference is money.

Do you see how all these booking systems are fooling you?

You can buy anything cheaper by this simple trick. Greyhound is just tan example.

All luxurious tranfers, hotels, planes may be booked like this.

You may think- I will save just \$20, it's not much.

But just think- if you spend 2 weeks on holidays and save \$20 everyday, it's \$280. Only by few simple clicks.

Be clever! Always check all bookings possibilities and choose the best option.

Find cheap luxury hotel.

'Cheap' and 'luxurious' in one sentence sounds like oxymoron.

Most of us thinks that if you want to get high-quality, you need to pay a lot for this.

Well, that's not always true.

Finding cheap luxury hotel is the most important thing in All Inclusive trip.

We won't spend much time in plane or taxi. We will be in the hotel for most of the time.

You may be surprised but All-Inclusive option is possible not only in Travel Agencies. You can buy this option on famous websites like f.e. booking.com

Example:

We were going to Dominican Republic on our honeymoon. We bought cheap plane tickets from Europe to Punta Cana (return, \$520 per person).

We reserved 5-star hotel on booking.com for \$1566, 15 nights. This object had great opinions, 8.6/10.

We paid \$60 for airport- hotel transportation.

\$1140 (flights) + \$60 (transportation) + \$1566 (hotel) = \$2766

*\$2766 / 2 = **\$1383 per person***

This is how much we paid for 16 days All Inclusive in Punta Cana paradise!

In the hotel we get better room, close to the beach, only because we were booking.com guests. They wanted us to feel good in their hotel because they really care about opinions.

Travel Agencies guests were treated normally.

We've checked it and asked other tourists: similar trip from Travel Agency costs at least \$3000 per person.

We really saved a lot of money only because we did everything by ourselves.

Awesome, right?

Luxury travel don't have to be expensive!

There are many ways to travel comfortable and don't spend a lot of money on it.

Use an Internet to find the best and the cheapest All Inclusive hotel.

We need to mention another way to book luxury hotel in very low price.

This is not very ethical method though. We, personally, never used pricing mistakes. But there are many people who do it. It's up to you if you take advantage of somebody's error or not.

What is price mistake? It's system's or employee's failure in data input. F.e. the hotel costs \$1 instead of \$1000. If you book it for one dollar, there's very likely that your order won't be cancelled. It's big company's policy that they are responsible for their mistakes. But... a worker can be fired.

Pricing mistakes can be found on travel's forums.

Choose the right time

Hotel, plane and transfer prices are different in particular time of the year. The most expensive is summer (July-August) and holidays (Christmas, New Year etc.)

During high season everything will be crowded and prices will be extremely high. You will overpay for food, accomodation, transportation and you will have to wait in long queues to visit anything.

It's really not worth it.

If you are planning holidays, choose June, September or October. The weather in Europe or America is still very good and the prices are lower. The end of the season is the only exception for using travel agencies. But not for the whole trip- only for buying the hotel room or flight from them. Travel agencies charter the whole plane or hotel at the beginning of every season.

Sometimes they can't sell everything on time. And that's when they are starting the big sales.

If you don't want to overpay, buy a flight or hotel separately. At the end of the season, some travel agencies have an amazing deals.

Example:

Last year we stayed in luxurious, 5-star hotel on Kos Island in Greece for \$100 per week. It was All-Inclusive option, so we had free drinks and free meals included in this price.

Why we paid so riddiculously little money?

Because we went there at the end of the season, on October. It was an amazing trip- the weather was still great and it wasn't crowded, so we could truly relax.

Not only All Inclusive hotels are cheap off the season. It also applies to flights.

Example:

We told you before that right now we are in Asia. Do you know how much we paid for the flight? \$120 per person for direct flight from Warsaw to Bangkok.

The plane was chartered from Polish Airlines Lot (member of Star Alliance Group) for one of Travel Agency that we bought the tickets from.

We found these two deals on websites we mentioned before in point 3.

You don't need to wait for the end of the season to organize your dream holiday.

Sometimes it's good to book everything in advanced. First minute prices are often very low. Almost everything will be cheaper: hotel, flight, museum tickets etc. So try to plan your trip early. You'll surely save a lot of money on it.

Tip:

When it comes to hotels, choose only deals that can be canceled up to one day before arrival.

Example: When you are planning your holidays at spring, always book the best hotel. You still have few months to search for something better. If you find good deal, you can easily cancel the room you booked before.

This simple trick will help you save the money because of first-minute reservation and won't cost you anything if you find something better afterwards.

Our favorite website which usually accepts cancelling the stay is [booking.com](https://www.booking.com)

You can always choose the deal which can be canceled. The terms are in 'condition' column. Check it below.

The room for \$278 is non-refundable.

The room for \$312 can easily be cancel up to 3 days before the date of arrival (it depends on the hotel how many days before arrival it's possible to cancel reservation. Usually it's 1-3 days).

Room type	Max	Price for 4 nights	Conditions	Nr. rooms	Reservation

Find good first-minute deals that can be easily canceled up to one day before arrival.

Join loyalty programs

Loyalty programs are great for flights and hotels. You gather points (miles) and then you can change it for free stay (ticket) or upgrading to higher class.

Usually the best loyalty programs are available with credit cards. For example for every dollar you spend, you get 1 mile to use for a flight. It's easy and won't cost anything.

We personally are participants of the Miles&More.

This is the biggest program like this on the world.

It gathers the most famous Airlines, called Star Alliance. It's the leading global airline network with the highest number of member airlines, daily flights, destinations and countries flown to.

Star Alliance members are inter alia United Airlines, Lufthansa, Air Canada, Air China, Air India, Thai Airways, Singapore Airways, Air New Zealand and many more.

In practice, after a year of using credit card, you can get a free flight from one of the Star Alliance member.

You also gather miles from every flight you buy from them. It's worth it. You are spending money anyway, so why not getting something back for it?

Earn from every dollar you spend by loyalty programs.

Always ask for discount or better standard

You'll be surprised how much you'll get.

People give discounts more likely than you think. Everytime you buy something, ask for discount. In most cases, you'll get it.

When you are booking something online, search for discount code on the Internet.

It takes only few minutes and allows you to save even 20% of the final price.

When you are at the restaurant or in the hotel, don't be affraid to ask for better standard.

It's very likely that it will be given to you.

Example:

When we in Paris, we had a nice chat we manager of the hotel. At the end, we asked him to give us a better room.

To our surprise, he gave us the best room they had in the entire hotel! It costed 300 euro per night and we paid for ir only 100 euro.

We get it only because we were daring enough to ask for a better standard.

Most people are too shy to ask for something better. They just take what they are given.

It's most companies policy that they allow their workers to give some guests something more than usual.

All you need to ask this employer to give it to you.

It's simple but it usually works.

You get higher standard for free!

Don't be afraid to ask for more. It's very likely you will get it.

Compare prices

We live in the free world, so everybody can value their service/ product as he wants.

Free market requires competitiveness. That's why you should never buy anything before comparing prices. Sometimes different websites have completely different cost for hotels, flights etc.

Search for the best deal, spend some time on it and we're sure you'll get the best what you can.

Example:

We were searching for good, luxury hotel that won't cost much. We reserved it on booking.com for \$1963, 15 nights. This object had great opinions, 8.6/10.

It was really cheap comparing to Travel Agencies trip. But we really wanted to pay less for it.

So we decided to use Booking.com policy 'lowest price guaranteed'. We spend few hours in the Internet to search for a deal with our hotel in lower price.

And we did it! We found an offer for \$1566. We contacted booking.com and ask for reducing the price. They did it without any problems.

We saved almost \$400 only because we were comparing prices.

Always search for the best deal and compare prices on different websites.
